

“At Lucy, we are pioneering simpler, more affordable paths to better health for every client and individual we serve in a market that is ripe for reinvention. With a \$500M infusion of capital investment, we are well-positioned to lead that charge releasing you from today’s high costs and complexities.

Prior to founding Lucy Rx, I worked with our clients and partners to build Catalyst Health Solutions into an award-winning, Fortune 500 company recognized among Fortune’s “Most Admired Companies” and the recipient of three PBM Institute Rx Benefit Innovation Awards.

Now, at Lucy Rx, I’m excited to partner with like-minded leaders like you to help everyone live a better, healthier life.”

—David Blair, CEO, LucyRx
